## Emergency Water Shutoff in 1200 Block of Manitou Avenue and Ute Area.

MANITOU SPRINGS CO – Our Public Works department is turning off the water connection near the 1200 block Manitou Avenue to allow for a contractor to repair a damaged water main. This will result in a water disruption from 1310 Manitou Avenue (Bottling Plant) to the intersection of Manitou Avenue & Waltham Avenue, Ute Trail, and Minnehaha Avenue from its intersection with Manitou Avenue to its intersection with Ute Trail.

More updates will be provided in the future. As of now, there is no estimated time of completion. Thank you for your understanding!
