Fire Restrictions Rescinded for Manitou Springs

MANITOU SPRINGS CO – Due to the recent moisture accumulation that Manitou Springs has seen, the Manitou Springs Fire Chief, on March 1st, 2021, has ordered that all Fire Restrictions be rescinded.

“While we have had some recent moisture, conditions could still rapidly deteriorate as we move into the warmer seasons. Because of this, the members of the Pikes Peak Wildfire Preparedness Group will continue to meet weekly to discuss weather predictions, drought conditions, fuel moistures, personnel and equipment resources and fire activity throughout the region and the state.”

MSFD Chief – John K. Forsett
