Manitou Springs Now Offering Free ADA Parking in All Paid Parking Spaces

MANITOU SPRINGS CO – To allow for everybody to have easy access to our great amenities and businesses, the City of Manitou Springs is now offering free ADA parking in all paid parking spaces across Manitou Springs as part of our #PositiveParking initiative. Requirements to utilize this free parking are no different than parking in a standard ADA spot, an identifying placard, or a license plate for persons with disabilities must be displayed.

This is applicable to all paid parking spaces, including spaces located in parking lots. In addition, all ADA designated spots will still be in place to allow for close access.

Please note that time limits on parking spaces will still be required.

We are pleased to be able to 'up our game' and give more people opportunities to visit Manitou Springs conveniently.

-John Graham
Mayor of the City of Manitou Springs
