Hiawatha Gardens Project Saves \$46,000 in Material Costs Due to Efficient Thinking by City Staff

MANITOU SPRINGS CO – Did you know that the dirt being used to backfill Hiawatha Gardens is exported dirt from the nearby MAPS Project? This efficient thinking by City Staff saved the Hiawatha Gardens Partial Demolition Project an estimated \$46,000 in material costs and will help the Hiawatha Project finish backfilling much faster!

In addition, the dirt from the MAPS project will no longer need to be hauled out of town.
