Planned Water Disruption Near Intersection of Chelton Rd and Spur Rd

MANITOU SPRINGS CO – There will be a planned water disruption for residents past the intersection of Chelton Rd and Spur Rd on Monday, August 30th beginning at 9AM.

The disruption is scheduled to take place until 1PM. Once the water is restored, it is common for discolored water and/or low water pressure to take place. Please remember to run your bathtub faucet on cold until the water pressure has returned to normal and/or the water is clear again.

Thank you for your understanding!
