Creek Walk Trail Virtual Public Information Room Launches

MANITOU SPRINGS CO – In 2018, the Creek Walk Trail Master Plan was completed, identifying optional trail alignments and goals for the Creek Walk Trail through community engagement. This document serves as the guide for the design of future trail segments.

Currently, Phase 3 of the Creek Walk Trail, which is from Shryver Park to the Chamber of Commerce, is pending final approval from CDOT to advertise for construction. For Phases 4&5, design creation was initiated in the Fall of 2021.

As a great next step, we are pleased to announce the launch of our Creek Walk Trail Public Information Room! This is a great central location to view the proposed alignment of Phases 4 & 5 of our Creek Walk Trail project, as well as learn the background of the project and how to provide feedback!

You can view the Virtual Public Information Room at: <https://bit.ly/MSCreekWalk>.
