Emergency Sewer Line Repair on Ruxton Avenue – Traffic Impacts Expected

MANITOU SPRINGS CO – A private contractor will be performing an emergency sewer line repair on upper Ruxton Avenue. This will result in there being flaggers on scene directing traffic near BOTH forks of Winter Street and Ruxton Avenue. Residents living on Fairview will still have access to Fairview, but they will need to be directed by the on-site flaggers. In addition, access to the Iron Springs Chateau will be maintained, with a similar process as those wishing to access Fairview.

If possible, please avoid this area to allow the contractor to perform their work in this tight and congested roadway. As of now, there is no current estimated time of completion.
