## Planned Water Disruption on Manitou Avenue

MANITOU SPRINGS CO – Our Public Works Department and Wildcat Construction are performing water valve installations near Waltham Avenue on Thursday, May 5<sup>th</sup>. These water valves will allow for future water disruptions to be consolidated to a few homes, as opposed to this stretch of Manitou Avenue. It is an important addition to our water system that will allow for much less impactful repairs in the future.

This water valve installation will result in a planned water disruption for all homes along Manitou Avenue from Tubby’s Turnaround to Ute Trail from 9AM-5PM. In addition, homes on Waltham near the Manitou Avenue intersection may also experience a disruption.

We are encouraging our residents to plan ahead for this disruption and to be aware that after the water connection is reestablished, discolored water and/or low water pressure are normal. To resolve the issues, please run your bathtub tap on cold.

We appreciate your understanding while we upgrade our water infrastructure!

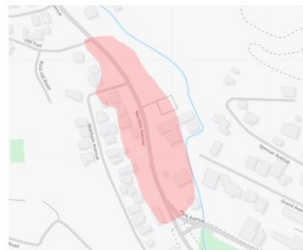

## Planned Water Disruption

### May 5 (9AM-5PM) – Manitou Avenue

Our Public Works Department and Wildcat Construction are performing water valve installations near Waltham Avenue on Thursday, May 5<sup>th</sup>. These water valves will allow for future water disruptions to be consolidated to a few homes, as opposed to this stretch of Manitou Avenue.

This water valve installation will result in a planned water disruption for all homes along Manitou Avenue from Tubby’s Turnaround to Ute Trail from 9AM-5PM. In addition, homes on Waltham near the Manitou Avenue intersection may also experience a disruption.
