Private Water and Sewer Work on Mesa Avenue – Trenching Through Roadway

MANITOU SPRINGS CO – A contractor will be installing a private water and sewer line for a residence on Mesa Avenue from June 9th – June 18th. As part of this work, the contractor will need to trench through the roadway, and cover the trench with a steel plate throughout the process. This steel plate will allow access for emergency vehicles and residential traffic.

Although through traffic will be maintained throughout the construction, please travel through the area with caution, especially if you are travelling by foot or bicycle. Proper safety cones and signage will be in place as well.

We appreciate your understanding!
