ADA Sidewalk and Storm Drainage Improvements Along El Monte Place

MANITOU SPRINGS CO – A pedestrian friendly roadway that is less prone to ice buildup is coming to El Monte Place! A contractor will be installing new ADA-compliant sidewalks along the northern side of El Monte Place, from the entrance to the Manitou Springs High School to Fountain Place. In addition, a storm drainage pan will be installed across the roadway near the Fountain Place and El Monte place intersection.

Construction is scheduled to last from June 21st – July 2nd. This construction will take place from 7AM-7PM Monday-Friday and will have no major traffic impacts other than periodic flaggers to help guide traffic through the area.

We appreciate your understanding while we improve our infrastructure!
