Hazard Mitigation Plan Survey Launches

MANITOU SPRINGS CO – Take our Survey on hazards! The City of Manitou Springs is updating the City of Manitou Springs Hazard Mitigation Plan in 2022 per the five year update cycle required of FEMA and the Federal Disaster Mitigation Act of 2000.

The Hazard Mitigation Plan analyzes the city's vulnerabilities to natural and human caused hazards and identifies mitigation actions that can be taken to minimize property damage and reduce the loss of life by lessening the impacts of disasters. The purpose of this survey is to collect information from the public and stakeholders to better understand the vulnerabilities within Manitou Springs as well as solicit input on needs to best mitigate, or reduce, the impacts of hazards before they occur.

The survey has 5 questions, takes less than 5 minutes to complete, and is open until July 11th, 2022.
